

**Line 3 Replacement Project**  
**PERMIT COMPLIANCE FILING**

---

**Permittee:** Enbridge Energy, Limited Partnership

**Permit:** Route Permit

**Docket No.:** PL-9/PPL-15-137

**Permit Section:** Section 4.3 – Construction Environmental Control Plan  
Section 5.4 – Construction Practices

**Date of Submission:** Update November 17, 2020

---

On May 5, 2020, Enbridge Energy, Limited Partnership (“Enbridge”) submitted a Line 3 Replacement Project Permit List (“Permit List”) as Attachment J of its Construction Environmental Control Plan (“CECP”) in compliance with the Minnesota Public Utilities Commission’s (“Commission”) requirements. *See* Compliance Filing (eDocket No. [20205-162903-01](#)). Consistent with Section 4.3 of the Route Permit, Enbridge filed updated Permit Lists as additional permits were issued. These updates include:

- November 2, 2020 (*see* Compliance Filing eDocket No. [202011-167958-01](#));
- November 6, 2020 (accepted November 9, 2020) (*see* Compliance Filing eDocket No. [202011-168123-01](#)); and
- November 13, 2020 (*see* Compliance Filing eDocket Nos. [202011-168332-01](#), [202011-168332-02](#), [202011-168332-03](#), [202011-168332-04](#), [202011-168332-05](#), [202011-168332-06](#), [202011-168332-07](#), [202011-168332-08](#), [202011-168332-09](#)).

Enbridge has further updated the Permit List to document and incorporate any updates with respect to the Project’s environmental and regulatory reviews, permits, authorizations, and/or concurrences that must be conducted and/or received by the indicated government agencies or authorities. A copy of the updated version of the Permit List is included with this filing. Enbridge is including copies of the additional Minnesota Department of Natural Resources permits received to date. Enbridge will provide copies of additional permits upon request. Enbridge will continue to update Appendix J as other permits are issued.

**Attachment J  
Line 3 Replacement Project  
Permit List**

The following table identifies the Project’s environmental and regulatory reviews, permits, authorizations, and/or concurrences that must be conducted and/or received by the indicated government agencies or authorities. This table lists the title of each consultation, permit, certificate, or approval; anticipated application and decision dates; and status of each consultation, permit, certificate, or approval required for the Project.

<b>Table J-1 Line 3 Replacement Project Required Permits and Approvals</b>			
<b>Unit of Government</b>	<b>Type of Application</b>	<b>Status</b>	<b>Reason Required</b>
USACE – St. Paul District	Section 10/404 Individual Permit	Application submitted	Authorizes discharge of dredged and fill material into waters of the United States, including wetlands, and crossing of navigable waters of the United States
USACE – St. Paul District	Section 408 Authorization for Lost River	Review request submitted	Authorizes alterations, occupation, or use of USACE civil works projects
USFWS	Section 7 Endangered Species Act Consultation (Federal endangered species)	Concurrence letter received	Establishes conservation measures and authorizes, as needed, take of federally protected species
	Non-Purposeful Take (Bald Eagle Nest Disturbance) Permit	Permit received	Allows for removal of a known bald eagle nest in proximity to construction activities
	USFWS Easements Authorization Letter	Letter received	Authorizes easement on USFWS conservation wetlands
FdL	Section 401 Water Quality Certification (“WQC”)	Certification received	Required for all waters of the FdL Reservation, including wetlands

Table J-1 Line 3 Replacement Project Required Permits and Approvals			
Unit of Government	Type of Application	Status	Reason Required
	Standard Wetland Activity Permit	Permit received	Required for all wetlands (and adjacent uplands affecting wetlands) within the exterior boundary of the FdL Reservation, regardless of ownership
MPUC	Certificate of Need	Order received	Determines need for the pipeline, including questions of size, type, and timing
	Route Permit	Order received	Authorizes construction of the pipeline along a specific route, subject to certain conditions
MDNR	License to Cross Public Waters	License received	50-year license that allows for crossing of public waters with proposed utility
	Work in Public Waters Permit – Wetlands	Permit received	Authorizes in-water activities in public waters located on private lands
	Work in Public Waters Permit – Willow River	Permit received	Authorizes in-water activities within the Willow River to construct a permanent bridge
	License to Cross Public Lands	License received	50-year license that allows for crossing of public lands with proposed utility
	Access Roads Road Leases	Received	Authorizes use of MDNR-managed access roads during construction and/or operation

Table J-1 Line 3 Replacement Project Required Permits and Approvals			
Unit of Government	Type of Application	Status	Reason Required
	Individual Water Appropriation Permit – Horizontal Directional Drilling and Hydrostatic Testing	Permit received	Authorizes withdrawal and use of water from surface water sources to produce drilling mud used in horizontal directional drills and for hydrostatic testing of the pipeline
	Individual Surface Water Appropriation Permit – Dust Control	Permit received	Authorizes withdrawal and use of water from surface water sources for dust control
	Individual Groundwater Water Appropriation Permit – Construction Dewatering	Permit received	Authorizes withdrawal of groundwater associated with trench/excavation dewatering activities
	Threatened and Endangered Species Taking Permit and NHIS Review and Avoidance Concurrence	Permit received	Outlines plans for avoidance, minimization, and mitigation of take of state-listed species and authorizes take of individuals
	Gully 30 Calcareous Fen Management Plan Authorization and No Effect Concurrence for other calcareous fens	Authorization re-issued with minor edits to fix administrative errors	Outlines the construction, restoration, and monitoring procedures to be implemented and authorizes construction across the Gully 30 Fen
	Individual Groundwater Water Appropriation Permit – Gully 30 Fen Construction Dewatering	Permit re-issued with minor edits to fix administrative errors	Authorizes withdrawal of groundwater associated with trench dewatering at the Gully 30 calcareous fen in accordance with the Fen Management Plan

Table J-1 Line 3 Replacement Project Required Permits and Approvals			
Unit of Government	Type of Application	Status	Reason Required
	Short-term Leases for Infiltration and Water Access	Received	Authorizes non-ground disturbance construction activities on public lands
	Short-term Lease for Beaver Dam Removal	Application submitted	Authorizes removal of beaver dam on public lands or waters
	Beaver Lodge Removal Permit	Received	Authorizes removal of beaver lodge on public lands or waters
MPCA	Section 401 WQC and Antidegradation Assessment	Certification received	Section 401 Water Quality Certification is required to issue the USACE Section 404/10 Permit
	Clearbrook Terminal Air Quality Permit – Capped Emissions Permit	Permit received	Authorizes construction and operation at the modified Clearbrook Terminal
	National Pollutant Discharge Elimination System (“NPDES”) Industrial Process Wastewater Permit	Permit received	Authorizes discharge of water from hydrotesting and buoyancy control activities
	NPDES General Construction Stormwater Coverage – Pipeline and Facilities	Application submitted	Authorizes ground disturbance with approved protection measures to manage soil erosion and stormwater discharge on construction site, and removal of water that may accumulate in pipeline trench or within facility excavations

<b>Table J-1</b>			
<b>Line 3 Replacement Project Required Permits and Approvals</b>			
<b>Unit of Government</b>	<b>Type of Application</b>	<b>Status</b>	<b>Reason Required</b>
Minnesota SHPO and Tribal Historic Preservation Offices	National Historic Preservation Act Section 106 Clearance, Minnesota Field Archaeology Act, and Minnesota Historic Sites Act	Concurrence letter received	Ensures adequate consideration of impacts to significant cultural resources but especially National Register of Historical Properties eligible; Minnesota SHPO and Tribal Historic Preservation Offices are engaged through federal and state permitting processes
Minnesota Department of Agriculture	Agricultural Protection Plan	Plan approved	Establishes measures for agricultural protection
Minnesota Department of Transportation	Road Crossing Permits	Permits received	Authorizes crossings of state-jurisdictional roadways
	Temporary access/entrance permits	Permits received	Authorizes access to private lands during construction from state highway right-of-way
Mississippi Headwaters Board	Local Land Use Review	Consultation complete	Ensures compatibility with land use plan
Red Lake, Two Rivers, and Middle-Snake-Tamarac Watershed Districts	Watershed District Permits	Permits issued	Authorizes crossing of legal drains and ditches within watershed
Minnesota Department of Health and Wrenshall, Sundruds Court, and Oklee Drinking Water Supply Management Area	Drinking Water Supply Management Area /Wellhead Protection Area Consultation	Notifications submitted	Ensures pipeline construction and operation are compatible with goals of relevant plans
Minnesota Board of Water and Soil Resources / Wetland Conservation Act Local Government Units	Notice of Intent to Utilize Federal Approvals for Utilities Project Exemption	Notices submitted	Notice of use of exemption required

Table J-1 Line 3 Replacement Project Required Permits and Approvals			
Unit of Government	Type of Application	Status	Reason Required
Local/County	Permits pertaining to off-right-of-way yard use	Permits received	Ensures compatibility with relevant land use plans
	Road crossing permits	Permits received	Authorizes crossing of local and county jurisdictional roadways
	Construction haul road agreements	Agreements obtained	Authorizes use of local and county roads to haul oversized loads
	Temporary access/entrance permits	Permits received	Authorizes access to private lands from local and county road right-of-way
	Short- to long-term leases – Access Roads	Leases received	Authorizes use of temporary roads on local and county owned lands

**Issuance of this permit does not exempt you from compliance with pertinent laws, ordinances, and regulations, including Executive Orders that limit public activities. Permittees should not assume that DNR issuing a permit allows them to conduct their work and they should consult the [Minnesota Department of Employment and Economic Development](#), who will make the determination if an activity is exempt or not.**

STATE OF MINNESOTA  
DEPARTMENT OF NATURAL RESOURCES  
DIVISION OF ECOLOGICAL AND WATER RESOURCES  
500 LAFAYETTE ROAD, BOX 25  
ST. PAUL, MN 55155

SPECIAL PERMIT NO. 28565  
(Taking of endangered and/or threatened species)  
November 12, 2020

**TO WHOM IT MAY CONCERN:**

Under the authority of Minn. Statutes, Section 84.0895 and Minn. Rules, Parts 6212.1800-2100, and informed by the accompanying Findings of Fact and Decision Rationale, permission is hereby granted to:

Barry Simonson  
Enbridge Energy, Limited Partnership  
11 East Superior Street, Suite 125  
Duluth, Minnesota 55802

and his agents, employees, and contractors, to take 25 *Carex formosa*, 40 *Carex pallescens*, 3 *Juglans cinerea*, 201 *Botrychium lanceolatum* ssp. *angustisegmentum*, 3 *Botrychium mormo*, 679 *Poa paludigena*, 2,020 *Carex sterilis*, 6,013 *Eleocharis rostellata*, and 158 *Rhynchospora capillacea*, incidental to development of the Line 3 Replacement Project in Township 155 Range 45, Section 20, Township 150 Range 39 Sections 19 and Sec. 30, Township 149 Range 38 Section 16, Township 149 Range 38 Section 16, Township 138 Range 31 Section 11, Township 139 Range 27 Sections 15, 20, and 21, Township 139 Range 25 Section 4, Township 51 Range 27 Section 36, Township 51 Range 26 Section 32, Township 51 Range 23 Section 24, Township 51 Range 22 Sections 16, 20, and 21, Township 49 Range 18 Section 22 in Marshall, Polk, Clearwater, Cass, Aitkin, St. Louis, and Carlton Counties, MN, subject to the following conditions:

1. Permitted take of the specified species is limited to the twelve locations specified in the September 14, 2020 application. Any additional taking of endangered or threatened species is beyond the authority of this permit and may only be conducted under the authority of a separate permit.
2. Compliance with the September 14, 2020 application and all provisions of the NHIS Review and Avoidance Plan (dated October 13, 2020) that are relevant to state-Endangered and state-Threatened species is a requirement of this Permit.
3. Compensatory mitigation for this taking totals two million five hundred thirty-two thousand eight hundred sixty dollars (\$2,532,860.00), which will be provided to the Minnesota Department of Natural Resources, pursuant to Minn. Statutes, 84.085 subd. 1., for the purpose of funding research, conservation planning, surveys, land protection, and/or land management activities contributing to the recovery of *Carex formosa*, *Carex pallescens*, *Juglans cinerea*, *Botrychium lanceolatum* ssp. *angustisegmentum*, *Botrychium mormo*, *Poa paludigena*, *Carex sterilis*, *Eleocharis rostellata*, and *Rhynchospora capillacea* in Minnesota, and so create a net benefit to these species in Minnesota.
4. The permittee shall provide a report to the DNR no more than 3 months following the completion of final restoration, described in the Environmental Protection Plan (dated October 26, 2020). The report shall document the areas of taking before and after construction with photos and maps, and describe any deviations from the work anticipated in the application.
5. This permit is effective for three years and will expire on December 31, 2023.

6. DNR may immediately cancel any takings permit upon determination that cancellation is necessary for the conservation of natural resources or for the welfare of particular specimens or is in the public interest. Minn. R. 6212.1800, subp. 8.
7. Violation of any of the permit terms may result in immediate revocation of the permit, and may subject the permittee to other penalties established by law.
8. This permit is effective upon receipt of a countersigned copy of this permit and the mitigation payment by the DNR. Receipt by the DNR will be confirmed by email.

**RE: GULLY 30 CALCAREOUS FEN MANAGEMENT PLAN and PERMIT #2018-3689, TEMPORARY DEWATERING, ENBRIDGE LINE 3 REPLACEMENT, MILEPOST 894.1004, GULLY 30, POLK COUNTY**

Dear Mr. Simonson, Ms. Motis and Ms. Bergland:

Enclosed is Permit # 2018-3689 and an approved Calcareous Fen Management Plan, authorizing construction an appropriation of water for temporary construction dewatering for new construction of the Line 3 Replacement pipeline within the Gully 30 calcareous fen located in the NE ¼ NW ¼ of Section 30, Township 150 North, Range 39 West, Polk County.

The Calcareous Fen Management Plan contains specific requirements for construction activities within the area of the fen. Water is to be pumped from two locations (South of County Ditch 89 and North of County Ditch 89). Location 1 (south of County Ditch 89) is to be pumped at a rate not to exceed 2,100 gallons per minute (gpm) with a maximum withdrawal of 47.3 million gallons per year (mgy) and Location 2 (north of County Ditch 89) is to be pumped at a rate not to exceed 700 gallons per minutes (gpm) with a maximum withdrawal of 15.8 million gallons per year (mgy).

Each locations will be using a well point system consisting of between eight to sixteen pumps with flexible tile line segments for dewatering. Total appropriation will not exceed 63.1 million gallons per year. Dewatering of the construction site must be done in frozen conditions or when water levels are the lowest (August to September) per the Calcareous Fen Management Plan (CFMP).

**Please read all permit conditions and limitations.** As a condition of this permit you are required to report monthly and total volumes of water appropriated annually within 10% accuracy. Water Use Reporting can be completed at the end of the year and submitted electronically through the MNDNR Permitting and Reporting System (MPARS) at

[www.mndnr.gov/mpars/signin](http://www.mndnr.gov/mpars/signin). You will receive a notification through email when water use reports are due. The report and a water use fee must be submitted as long as the permit is active, even if no water is used. Failure to submit the Water Use Report and fee can result in the termination of your permit. Please do not send the report and fee until notified.

If you have any questions, please contact Stephanie Klamm at 218-219-8585 or email at [stephanie.klamm@state.mn.us](mailto:stephanie.klamm@state.mn.us).

Sincerely,

Jess Richards  
Assistant Commissioner

This permit is granted **subject to** the following **CONDITIONS**:

**LIMITATIONS:** (a) Any violation of the terms and provisions of this permit and any appropriation of the waters of the state in excess of that authorized hereon shall constitute a violation of Minnesota Statutes, Chapter 103G. (b) This permit shall not be construed as establishing any priority of appropriation of waters of the state. (c) This permit is permissive only. No liability shall be imposed upon or incurred by the State of Minnesota or any of its employees, on account of the granting

**CONDITIONS** (Continued from previous page)

hereof or on account of any damage to any person or property resulting from any act or omission of the Permittee relating to any matter hereunder. This permit shall not be construed as estopping or limiting any legal claims or right of action of any person other than the state against the Permittee, for any damage or injury resulting from any such act or omission, or as estopping or limiting any legal claim or right of action of the state against the Permittee, for violation of or failure to comply with the provisions of the permit or applicable provisions of law. (d) In all cases where the doing by the Permittee of anything authorized by this permit shall involve the taking, using, or damaging of any property, rights or interests of any other person or persons, or of any publicly owned lands or improvements thereon or interests therein, the Permittee, before proceeding therewith, shall obtain the written consent of all persons, agencies, or authorities concerned, and shall acquire all property, rights, and interests necessary therefore. (e) This permit shall not release the Permittee from any other permit requirements or liability or obligation imposed by Minnesota Statutes, Federal Law, or local ordinances relating thereto and shall remain in force subject to all conditions and limitations now or hereafter imposed by law. (f) Unless explicitly specified, this permit does not authorize any alterations of the beds or banks of any public (protected) waters or wetlands. A separate permit must be obtained from the Department of Natural Resources prior to any such alteration.

**FLOW METER:** The Permittee shall equip each installation for appropriating or using water with a flow meter, unless another method of measuring the quantity of water appropriated to within ten (10) percent of actual amount withdrawn is approved by the Department.

**WATER USE REPORTING:** Monthly records of the amount of water appropriated or used shall be recorded for each installation. Such readings and the total amount of water appropriated or used shall be reported annually to the Director of DNR Ecological and Water Resources, on or before February 15 of the following year, via the MNDNR Permitting and Reporting System (MPARS) at [www.mndnr.gov/mpars/signin](http://www.mndnr.gov/mpars/signin). Any processing fee required by law or rule shall be submitted with the records whether or not any water was appropriated during the year. Failure to report shall be sufficient cause for terminating the permit 30 days following written notice.

**MODIFICATION:** The Permittee must notify the Commissioner in writing of any proposed changes to the existing permit. This permit shall not be modified without first obtaining the written permission from the Commissioner.

**TRANSFER OR ASSIGNMENT:** Any transfer or assignment of rights, or sale of property involved hereunder shall be reported within 90 days thereafter to the Director of DNR Ecological and Water Resources. Such notice shall be made by the transferee (i.e., new owner) and shall state the intention to continue the appropriation as stated in the permit. This permit shall not be transferred or assigned except with the written consent of the Commissioner.

**COMMISSIONER'S AUTHORITY:** (a) The Commissioner may inspect any installation utilized for the appropriation or use of water. The Permittee shall grant access to the site at all reasonable times and shall supply such information concerning such installation as the Commissioner may require. (b) The Commissioner may, as he/she deems necessary, require the Permittee to install gages and/or observation wells to monitor the impact of the Permittee's appropriation on the water resource and require the Permittee to pay necessary costs of installation and maintenance. (c) The Commissioner may restrict, suspend, amend, or cancel this permit in accordance with applicable laws and rules for any cause for the protection of public interests, or for violation of the provisions of this permit.

**PUBLIC RECORD:** All data, facts, plans, maps, applications, annual water use reports, and any additional information submitted as part of this permit, and this permit itself are part of the public record and are available for public inspection at the offices of DNR Ecological and Water Resources. The information contained therein may be used by the Division as it deems necessary. The submission of false data, statements, reports, or any such additional information, at any time shall be deemed as just grounds for revocation of this permit.

**MONITORING REQUIREMENTS:** Minnesota Statutes 103G.282 authorizes the Department of Natural Resources to require permittees to install and maintain monitoring equipment to evaluate water resource impacts from permitted appropriations. You may be required to modify or install automated measuring devices and keep records for each installation. The frequency of measurements and other requirements will be based on quantity of water appropriated, source of water, potential connections to other water resources, nature of concern, and other relevant factors.

**DROUGHT PLANNING:** In accordance with M.S. 103G.293, all permits must be consistent with the drought response plan detailed in the Statewide Drought Plan at [http://files.dnr.state.mn.us/natural\\_resources/climate/drought/drought\\_plan\\_matrix.pdf](http://files.dnr.state.mn.us/natural_resources/climate/drought/drought_plan_matrix.pdf).

**WATER USE CONFLICT:** If notified by the DNR that a water use conflict is suspected and probable from your appropriation, based on confirmation of a formal well interference complaint or a preliminary hydrologic assessment, all

**CONDITIONS** *(Continued from previous page)*

appropriation authorized by this permit must cease immediately until the interference is resolved. The permittee may be required to obtain additional data to support the technical analysis, such as domestic well information within a radius of one and one-half miles of the production well. The permittee and impacted party may engage in a negotiated settlement process and there may be modifications made to this permit in support of conflict resolution.

**SUSPENSION:** The Department may require the suspension of appropriation during periods of low water in order to maintain minimum water levels within the basin/watercourse/watershed.

**CONTINGENCY:** If directed by DNR Ecological and Water Resources to cease pumping, the permittee agrees to withstand the results of no appropriation as stated in the contingency statement submitted with the application.

**INTAKE:** All pump intakes must be screened to prevent fish from being drawn into the system.

**INVASIVE SPECIES - EQUIPMENT DECONTAMINATION:** All equipment intended for use at a project site must be free of prohibited invasive species and aquatic plants prior to being transported into or within the state and placed into state waters. All equipment used in designated infested waters, shall be inspected by the Permittee or their authorized agent and adequately decontaminated prior to being transported from the worksite. The DNR is available to train inspectors and/or assist in these inspections. For more information refer to the "Best Practices for Preventing the Spread of Aquatic Invasive Species" at [http://files.dnr.state.mn.us/publications/ewr/invasives/ais/best\\_practices\\_for\\_prevention\\_ais.pdf](http://files.dnr.state.mn.us/publications/ewr/invasives/ais/best_practices_for_prevention_ais.pdf). Contact your regional Invasive Species Specialist for assistance at [www.mndnr.gov/invasives/contacts.html](http://www.mndnr.gov/invasives/contacts.html). A list of designated infested waters is available at [www.mndnr.gov/invasives/ais/infested.html](http://www.mndnr.gov/invasives/ais/infested.html). A list of prohibited invasive species is available at [www.mndnr.gov/invasives/laws.html#prohibited](http://www.mndnr.gov/invasives/laws.html#prohibited).

**INFESTED WATERS - WATER TREATMENT REQUIREMENTS:** Surface water appropriation from waters listed as containing invasive species (see <http://www.mndnr.gov/invasives/ais/infested.html>) are required to contact 651-259-5100 or 1-888-MINN-DNR to obtain information from the DNR Division of Ecological and Water Resources on specific invasive species water treatment requirements.

**WATER CONSERVATION:** All practical and feasible water conservation methods and practices must be employed to promote sound water management and use the least amount of water necessary, such as reuse and recycling water, water-saving devices, and water storage.

**DISCHARGE AUTHORIZATION:** This permit is valid only in conjunction with all required discharge authorizations from local, state, or federal government units.

**CALCAREOUS FEN MANAGEMENT PLAN (CFMP):** This permit is valid only when activities at the site follow the Gully 30 Calcareous Fen Management Plan (CFMP) dated October 2020. Associated monitoring tasks must also be followed. The Gully 30 CFMP is attached to this permit.

**DOCUMENTATION OF WELL-POINTS:** Enbridge must document the exact location and number of dewatering well-points or piezometers and the exact amount of water they appropriate prior to water appropriation starting. All documentation must be sent to the DNR Area Hydrologist Stephanie Klamm at [stephanie.klamm@state.mn.us](mailto:stephanie.klamm@state.mn.us) or uploaded into the 2018-3689 permit file after the completion of the Line 3 Replacement Project.
